

Carbon Reduction Plan

Supplier name: Harris Vehicle Hire Ltd

Publication date: 14 September 2026

Commitment to achieving Net Zero

Harris Vehicle Hire Ltd is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2025/26	
Additional Details relating to the Baseline Emissions calculations.	
Harris Vehicle Hire Ltd has not previously completed a quantified organisational greenhouse gas inventory within the information supplied for this Carbon Reduction Plan. Accordingly, no emissions figures have been invented or estimated from incomplete source information. The 2025/26 reporting period is identified as the intended baseline period, with quantified Scope 1, Scope 2 and the relevant Scope 3 categories to be established using the applicable methodology. The tender response at Question 1.30.6 should explain the current reporting position where required.	
Baseline year emissions: 2025/26	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	Not yet quantified
Scope 2	Not yet quantified
Scope 3 (Included Sources)	Not yet quantified
Total Emissions	Not yet quantified

Current Emissions Reporting

The information provided to prepare this Carbon Reduction Plan does not contain quantified Scope 1, Scope 2 or Scope 3 emissions data. Harris Vehicle Hire Ltd therefore records these categories as “Not yet quantified” rather than introducing unsupported figures. Harris Vehicle Hire will establish and report its organisational carbon footprint using the PPN 006/GHG Protocol methodology and appropriate Government emission conversion factors.

Reporting Year: 2025/26	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	Not yet quantified
Scope 2	Not yet quantified
Scope 3 (Included Sources)	Not yet quantified
Total Emissions	Not yet quantified

Emissions reduction targets

In order to continue our progress towards Net Zero, Harris Vehicle Hire Ltd has adopted the following carbon reduction objectives:

- Progressively increase the proportion of electric and hybrid vehicles in the fleet, enabling customers to select zero-tailpipe-emission vehicles where operationally suitable.
- Maintain a modern fleet, with most vehicles aged three years or less and Euro 6 compliant where internal combustion vehicles are required.
- Reduce unnecessary fuel use through efficient vehicle delivery and collection planning.
- Maintain vehicle fuel efficiency through routine servicing, oil management and tyre-pressure monitoring.
- Continue reducing paper and associated material consumption through cloud-based digital systems.
- Continue segregated recycling of metals, oils, tyres, plastics, cardboard and other workshop/office materials.
- Establish quantified carbon-reduction targets once the organisational baseline has been measured.

Progress against these objectives will be reported following completion of the quantified carbon baseline.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures have been implemented and will be in effect when performing the contract:

- Progressive fleet electrification, including increasing availability of electric and hybrid vehicles.
- Use of ChargePoint charging infrastructure powered by clean energy for electric fleet charging.
- Maintaining a predominantly modern, Euro 6-compliant fleet, reducing emissions compared with older Euro 4/Euro 5 vehicles.
- Cloud-based digital systems, reducing paper usage by over 95% in the last three years and reducing printer material and plastic consumption.
- Segregated recycling across offices and workshops for metals, oils, tyres, plastics, cardboard and other materials.
- Efficient logistics planning for vehicle delivery and collection to minimise unnecessary travel and fuel use.
- Routine servicing, oil management and tyre-pressure monitoring to support fuel efficiency, reduce engine wear and reduce carbon output.
- Monitoring of fleet emissions standards, recycling activity and operational efficiency through internal operational reviews.

No ISO 14001, PAS 2060 or other formal environmental certification is stated in the supplied Harris carbon-reduction source, so none has been claimed in this plan.

Future carbon reduction initiatives

In the future Harris Vehicle Hire Ltd will seek to implement further measures such as:

- Continue and accelerate the progressive electrification of the fleet where operationally suitable.
- Expand the availability of electric and hybrid vehicles to customers.
- Continue improving delivery and collection planning to minimise unnecessary mileage and fuel use.
- Continue digitalisation and waste-reduction measures.
- Continue responsible recycling and monitoring of workshop waste streams.
- Develop quantified organisational carbon reporting and measurable reduction targets to support the Net Zero 2050 commitment.

Contract applicability: The environmental management measures described in this plan are measures Harris Vehicle Hire Ltd can apply when performing vehicle hire contracts for public sector customers.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan is to be reviewed and signed off by a director of Harris Vehicle Hire Ltd. It is intended to be published and clearly signposted on the Harris Vehicle Hire Ltd UK website and updated at least annually.

Signed on behalf of the Supplier:

Name / signature of Director: James Harris
